Message from The Director of Care/Site Leader

I am pleased to share two important updates regarding ongoing improvements at our site that directly support resident care, comfort, and overall experience.

First, our nurse call system upgrade is nearing completion and is expected to be fully finalized by the second week of June, by the time this newsletter is circulated. This is a significant enhancement to our communication and response system, allowing staff to respond more efficiently and effectively to resident needs. Once fully operational, the upgraded system will further strengthen safety, responsiveness, and peace of mind for both residents and families. We are very excited about the positive impact this will have on daily care delivery and overall quality of service within the home.

In addition, I am happy to provide an update on our resident room renovations. Two resident rooms in north 2nd floor are scheduled to be completed this month. These refreshed rooms will provide a more, comfortable, and welcoming environment for our residents. The upgrades are part of our continued commitment to maintaining a safe and homelike living space, and we look forward to residents enjoying these improved surroundings very soon.

We sincerely thank our residents, families, and team members for their continued patience and understanding throughout these projects. Your support is greatly appreciated as we work to enhance our environment and care experience.

Joann Palar
 Site Leader/Director of Care
